Use CA glue to fit it

30€

#19 Complete kit Raid 32 with paddles

NEW!

Do you have an OEM Smart 2 spoke steering wheel without paddle shifters? If you want to have them, IT IS POSSIBLE!

Best sport steering wheel to adapt is the tiny 32 cm diameter Raid Atiwe, used in Porsche and Koenigsegg. To make this happen, you need to buy:

- Raid Atiwe 32 (aprox. 200-300€)
- Lowcost 0.7 Smart Fortwo wheel (aprox. 50€)
- This Conversion KIT (150€)

Also, you will need to use the OEM Smart steering wheel angle sensor. This conversion kit includes everything: complete wiring harness, paddles shifters with magnetic system, all screws and nuts needed, center base with all parts in hard plastic and guide instructions.

This kit also allows you to keep your OEM steering wheel safely stored away.

Installation guide provided

150€

taxes (21%) included
